**March 20, 2020**

**To Our Valued Customers:**

**Subject: COVID-19 Update**

Yesterday evening (March 19), Pennsylvania Governor Tom Wolf, has made the closing of all “non-life sustaining” businesses mandatory. PCC had already started working remotely effective March 17, however, this new order will very likely affect PCC’s manufacturing supply base.

Our Project Management team is currently evaluating the possible impact on all current projects, and will be in communication with their corresponding Project Managers as quickly as possible. PCC will do what we can to mitigate impact on projects, however, there are many unknowns to this situation, and we cannot estimate how long this order will be in effect.

PCC will keep you updated as new information becomes available. We understand many of you both personally and professionally are going through the same challenges, and we want to assure you that we will work with you as necessary to complete your project. We will all come through this situation stronger. We thank you for your support and wish you and your families the best.

Please stay safe,

**William J. Huebner**  
**President and CEO**  
**Process Combustion Corporation**
